

## ABSTRACT INSTRUCTIONS

**First A. Author<sup>1</sup>, Second B. Author<sup>2,\*</sup>, Third C. Author<sup>1,2</sup>**

<sup>1</sup>Institution of first author  
Address  
e-mail: first@e-mail.address

<sup>2</sup> Institution of second (and third) author  
Address  
e-mail: {second, third}@ e-mail.address

### 1 INTRODUCTION

Abstracts should outline the main assumptions, models and algorithms formulation, original results, final conclusions and possible applications. In the abstract the main relevant references should be quoted, e.g. [1-3]. The above listed information will be taken into account at the reviewing of the abstract.

Authors are invited to submit electronically their abstracts, through the web site of the Symposium, **before February 28th, 2013**. The Abstract can be submitted directly in its final form. Authors will have the possibility of replacing the file by an updated version after the acceptance notification, but this will not be a requirement.

### 2 ABSTRACT PREPARATION

The Abstract should be written following the format of the Latex and Word macros for submission that can be found in the Author's Area on: <http://ipm.prz.edu.pl/>. The file must be converted to Portable Document Format (PDF) before submission through the Symposium web site. Other formats are not accepted by the system.

The Abstract must contain the full name and full address of author(s). In the case of joint authorships, the name of the author who will actually present the paper at the Symposium should be indicated with an asterisk. Papers can only be accepted on the understanding that they will be presented at the Symposium.

The Abstract must be written in English within a printing box of 130mm x 205mm, centered in the page. Please do not paginate your abstract. Maximum file size is 4 MB.

### 3 EQUATIONS, FIGURES AND TABLES

Equations, figures and tables must be centered and numbered sequentially:

$$\mathbf{Kq} = \lambda \mathbf{P}^* \quad (1)$$

Figures and tables should also include a small description label (as indicated in Fig. 1 and Table 1) and should be referred within the text. All mentioned components must appear within the designated margins whereas illustrations will be reproduced in gray scale.

Figure 1: Example of a figure.

Table 1: Eigenvalues and eigenvectors of covariance matrix  $\mathbf{S}$ .

No. of PC	Eigenvalues	Coeff.	Eigenvectors
$j$	$\lambda_j$	$m_j$ (%)	$\mathbf{q}_j$
1	32.029	0.9516 (95.1)	{ 0.0852, 0.0589, 0.0019, 0.9946 }
2	1.548	0.0460 (4.6)	{ -0.3472, -0.9339, -0.0072, -0.0850 }
3	0.081	0.0024 (0.2)	{ 0.9339, -0.3526, 0.0070, -0.0592 }
4	0.001	0.0000 (0.0)	{ 0.0092, 0.0044, -0.9999, 0.0009 }

#### 4 FINAL REMARKS

Please note that final acceptance of papers for presentation is conditional to receiving the Abstract and the payment of the presenting author's congress registration fee. Only one presentation per delegate is allowed.

**Important:** Before submitting the contribution you should be registered. Please fill in the registration form using your e-mail address as login and choosing your password. Please type the e-mail carefully since you will not be able to repair it after registration. To modify any other information or add/modify the file of the Abstract you have to log-in. Registration does not oblige contributors to pay the fees before having received the acceptance letter.

For any question, please do not hesitate to contact IPM 2013 Secretariat: ipm@prz.edu.pl.
